SOUVIK SARKAR

Senior Technical Writer

sounix000@gmail.com ⋄ (+91) 6360229130 ⋄ [Portfolio](#)

OVERVIEW

Technical Writer with **9 years** of experience documenting software and APIs for developers and administrators, backed by **4 years** of experience as a **developer**. I develop deep technical content for an optimal developer experience using the docs-as-code paradigm and open-source tools.

SKILLS

Programming	Python, Bash, C/C++, Asm
Markup	DocBook XML, AsciiDoc
Deployment	Docker, Kubernetes
Cloud	Google Cloud Platform
VCS	Git (GitHub, GitLab)
Images/Diagrams	Inkscape, Mermaid.js
Code/Text Editors	VSCode, Vim

EMPLOYMENT

SUSE   March 2023 - Present
Senior Technical Writer

- Maintain the SUSE Linux Enterprise guides for security hardening, compliance certifications, performance tuning, virtualization, and deployment.
- Research, plan, and contribute to transitioning from monolithic guides to topic-based modular documentation for SUSE Linux Enterprise.
- Collaborate with engineers, release managers, and product managers to realign the SUSE Linux Enterprise documentation with technical and business expectations.
- Interface with the support engineering team to reinforce existing documentation and create client-specific knowledge base articles.
- Participate in peer reviews and mentor new technical writers in the team.
- Technologies/Tools: SUSE Linux Enterprise, OpenSUSE Leap, Bash, Python, C, Assembly, DocBook XML, AsciiDoc, GitHub, GitLab, VS Code, Vim, JIRA, Confluence Wiki

Red Hat   November 2020–March 2023
Senior Technical Writer

- Lead documentation efforts for OpenShift CI/CD Pipelines, including triaging issues, creating documentation plans, and deciding content strategy.
- Participated in peer reviews of documents for other products and mentored new technical writers in the team.
- Collaborated with content strategists and product managers to realign product documentation with upstream documentation.
- Interfaced with the support engineering team to reinforce existing documentation and create client-specific knowledge-base articles.
- Data analyzed to improve documentation coverage, flow, architecture, findability, and accessibility.
- Technologies/Tools: Red Hat Enterprise Linux, Fedora Linux, Docker, Kubernetes, GCP, AWS, Golang, Bash, AsciiDoc, Markdown, Lucidchart, GitHub, GitLab, VS Code, Vim, JIRA, Tableau, Google Sheets

Ribbon Communications
